Scientists believe that there are 3 main types of learning styles: auditory, visual, and kinesthetic.

Most people learn best through a combination of the three types of learning styles.

Knowing what type of learner you are can help you best attack your studying by knowing when, where, and how to study. So take this quiz and find out what type of learner you are.

Have a go online or grab a pen and paper to use the snapshot sent by your coach. Reflect on your results and share with your coach.
